

Pickups in AdManager Pro

Pickups can be entered through AMP.

1. On the Extended Attributes screen, enter the previous ad number in Ad Pickup #.
2. On Ad Pickup with changes, choose T if it is a pickup with changes or F if there is no change.
3. Once the ad is picked up, a proof will be automatically generated so any changes can be marked up.

Note: If there are any differences such as size or color, a proof will not be automatically generated.

The screenshot shows the 'Extended Attributes' interface in AdManager Pro. At the top, there is a navigation bar with buttons for 'Save', 'Cancel', 'Cancel Order', 'Customer', 'Previous', 'Extended Attributes' (selected), 'Next', and 'Home'. Below this is the 'Attributes' section, which contains a list of settings:
